TIMELESS DESIGN

BOTH BEAUTIFUL AND AFFORDABLE.

Vytec Nantucket® siding has a clean, crisp style reminiscent of a time when life moved at a quieter pace. The panels have a natural woodgrain that looks freshly painted and requires virtually no maintenance to stay looking its best.

First, a distinctive profile.

The siding profile is the shape of the panel when you look at it from the side. Vytec Nantucket siding has a clean, straight profile that looks like traditional clapboard, or choose a Dutch Lap style with a gentle curve on the top of the panel.

- Clapboard-style panels offer clean, crisp lines that suit nearly any home style.
- Dutch Lap siding gives a home a softer, more old-fashioned look.

- Consider pairing a lighter wall color with a darker accent color to call attention to details like dormers.
- For best results, choose a siding that complements your roof color.

Make the most of the woodgrain.

Vytec Nantucket has a subtle, low-gloss woodgrain finish that looks just like painted wood. The grain may be more apparent on darker colors and less apparent on lighter colors. Either way, this great look will add beauty and curb appeal to your home's exterior.

Accessories complete the picture.

Accessories like corner posts and soffit are essential to any vinyl siding installation. But adding elements like shakes, scallops or board & batten can take your home's exterior design up a notch. Vytec's Finishing Elements® accent pieces let you choose the look that's right for your home, while providing virtually maintenance-free durability and performance.

Next, the color that's right for you.

With Vytec siding you won't get just any color, you'll get the right color. Here are a few tips for choosing color.

- Choose light colors to make your home look larger.
- Pick a darker color to make a large home look less imposing.

White

Irish Linen

Antique Ivory

Country Almond

Autumn Ash

Sierra Brown

Terra Clay

Sage Green

Clipper Gray

Estate Gray

Sandalwood

Storm

THE ANATOMY OF VINYL SIDING.

Not all vinyl siding is created equal. Nantucket siding has a variety of performance features that ensure reliable performance and a lifetime of great looks.

Full-thickness nailing hem adds strength where the panel is attached to the wall, resisting wind loads and helping to smooth wall irregularities. Smooth surface nailing hem with burr-free nail slots helps improve performance on the wall.

Posilok® locking system holds panels securely, while allowing expansion and contraction in changing temperatures.

.040" thickness offers lasting toughness, while precise dimensional consistency ensures a snug fit and tight laps.

Enhanced shadow lines create the look of real wood.

THE PROS TRUST VYTEC

When it comes to the products he sells, your contractor makes his choices as carefully as you would. That's why he chooses vinyl siding from Vytec. At Vytec, we stand behind the products we make. Continued advancements make us a manufacturer you can rely on for innovative, high performing products. It's this dedication to our craft that makes Vytec a partner your contractor can trust – and one you can trust, too.
