

SHAKES

NOT ALL SHAKES

Single 7" Cedar Shakes

ARE DESIGNED EQUAL.

Vytec performs with style.

Today's Shakes are designed to cover your entire home in beauty and elegance, or create distinctive accent areas with easy care, long-lasting performance.

Vytec Shakes combine state-of-the-art engineering with a host of colors that you can use to design a home that's truly your own.

The difference is in the details.

Beautiful, elegant and tough, Vytec Shakes are like nothing you've seen before.

- Composite polymer material is injection molded for a stronger panel that resists dents and dings.
- Unique continuous lock holds panels snug and secure against the wall.
- Deep, detailed grain looks more like real cedar.
- Random patterns and varying gaps in the panel design hide seams.
- Longer, single-course structure looks more natural on the wall and minimizes installation waste.
- Exclusive nail hem simplifies installation because no center nail is needed.
- Matching mitered corner for a perfectly finished look.
- Limited lifetime warranty.

More colors to choose from.

- One of the industry's broadest color palettes, including bolder, darker colors for distinctive style.
- Colors match Vytec vinyl siding and accessories to help create a perfectly coordinated home exterior.

Style you can build on.

Whether you use Shakes for a single wall, to accent a dormer or to cover the entire house, Vytec's classic style fits many architectural designs.

- Single 7" Cedar Shakes are reminiscent of East Coast architecture, with clean lines and a refined appearance.

THE ANATOMY OF SHAKES.

Turning a house into a home is all about the details.

Our Shakes allow you to design an exterior that reflects your sense of style, while providing virtually maintenance-free performance and durability.

Optional mitered corner gives a home's exterior a perfectly finished look.

Matching molded corner integrates easily with a variety of vinyl accessories.

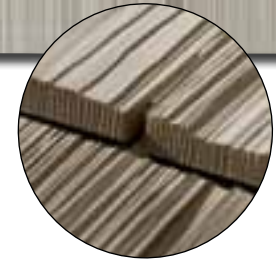

Exclusive nail hem simplifies installation because no center nail is needed.

Unique continuous lock holds panels snug and secure against the wall.

.085" Extra-thick panel made of an injection molded composite polymer for superior strength and rigidity.

Random patterns and varying gaps in the panel design hide seams.

9/16" Deep, realistic panel projection creates enhanced shadow lines.

THE PROS TRUST VYTEC

When it comes to the products he sells, your contractor makes his choices as carefully as you would. That's why he chooses vinyl siding from Vytec. We stand behind the products we make. Continued advancements make us a manufacturer you can rely on for innovative, high performing products. It's this dedication to our craft that makes Vytec a partner your contractor can trust – and one you can trust, too.
